

Fifty Years of Fluoride Glasses (50YFG)

March 11-13, 2024

University of Rennes

Rennes, FRANCE

Call for Poster session

Deadline : February 15, 2024

<https://fluorglass50years.sciencesconf.org>

The serendipitous discovery of the first fluorozirconate glasses occurred in March 1974. Fifty years later, Rennes University organizes a symposium to celebrate this anniversary. It will review the state of art of fluoride glass scientific achievements and industrial applications. Historical actors, leading researchers and industrial players will report their views and prospects for the future.
